Course Description

In this course we explore a wide range of evolutionary theories derived from a broad spectrum of scientists, philosophers, and visionaries.

The student is encouraged to critically review each of these and to compare and contrast the various theories of evolution. We will explore the relevance of each of these theories to contemporary life and to Unity ministry.

Learning Objectives:

Upon completion of this course students will be able to:

- Compare and contrast various theories of evolution.
- Recognize principles of evolutionary spirituality at work in our world today.
- Integrate knowledge of this topic into their personal credo and vision of ministry.

The above objectives partially fulfill the following outcomes for the Master of Divinity and Certificate programs: Demonstrate appropriate knowledge needed for ministry
